

# Can you **imagine** an Alabama where **every child...**

-  **Receives adequate funding to educate them?**
-  **Has a strong start?**
-  **Can read and do math on grade level?**
-  **Has a high-quality principal and effective teachers?**
-  **Has a pathway to economic mobility?**

While Alabama has been making progress, we still have a long way to go before every child has access to a world-class education.

**We believe** now is the time to urgently demand more for Alabama students.

**Join the Movement.**

 **ONLY 30%** of students are proficient in math

 **ONLY 49%** of students are proficient in reading

 **52** schools with 0% of Black students proficient in math

Black students, low-income students, and students with disabilities experience worse outcomes across the board.

# Every Child Alabama

## Who are we?

**Every Child Alabama** is a coalition of organizations and individuals working to ensure **every child** across Alabama has access to a world-class education to reach their full potential.

We share a unifying belief that when every child receives a transformative education, it strengthens communities, making them better places to live, work, and raise a family.

**It's time for** organizations, business leaders, educators, students, families, and community members to unite and ensure every child has access to an excellent education and pathways to economic mobility.
